REVENUE FOR SCOTLAND

Over the years our land of birth, blood and heritage has been stolen away from us. But the B.N.S.M. plans when given the chance, to stop Scotland's revenue such as from the oil fields being leeched away by Westminster and foreign companies. This wealth will be kept in Scotland and used for our lands benefit. This will cause a source of regeneration, instead of having its lifeblood drained away. No more shall a Scot be made to feel a second class citizen in his own land.

AT last we now have a P.O. BOX. in Scotland. Thanks to comrades in Glasgow. The P.O. BOX. number is as follows.

Foreign companies will no longer be able to buy up acres of our land and get millions of pounds worth of grants to ravage the environment taxfree. The B.N.S.M. will not turn away valuable work from Scotland as all work generated there will remain under Scottish control. No longer will alien money power set up companies taxfree and close down without just cause, moving onto Third World sites, putting thousands of our countrymen out of work without a backward glance. No longer will tax exiles be allowed to buy up our forest's and wilderness and plunder them for profits. All Scotland's revenue from exports, tourism and raw materials including those generated by foreign companies will be used for Scotland's future.

OUR BLOOD

*Our blood is that of our fore farthers,
The ones who belong to this land,
But alien people are taking it away,
and its getting out of hand.*

*Our blood must never mix with theirs,
For that is destroying our race,
Our purity must forever stay strong,
And continue in our rightful place.*

*Our blood has spilled across the soil,
In defence of what was ours,
But now the traitors sell us out,
Abusing their false gained powers.*

*Our blood will fight again be sure,
For we must protect our own,
They try to hide our true lifeline,
But the seeds of revenge have been sown.*

THE LAST OF TWO PARTS.

Well if any of you have been reading the papers lately, or watching the television, you will of seen that the pathetic piece of scum called John Major, has finally come out and said that there is nearly **TWO MILLION** of our Oriental friends,who have got or are getting visa's to come to our land.

- ◇ 1st. It was 20,000.
- ◇ 2nd. It was 50,000.
- ◇ 3rd. It was a couple of 100,000

NOW A FEW MILLION.

The country we used to know and love will be changed for ever. If you think of the white population and the size of their families (I.E) Most white families these days only have one or two children, where as Orientals will have double or more that number. So how many years will it be till they out breed us and we are a MINORITY.

WHERE ARE OUR FORCES GOING

A five year plan by our armed forces to combat racism could lead to sights like this picture on the left becoming a common sight.

So who thinks that Prince Charles should become king, as one of the first things he will do is put coloured faces on the gate of Buckingham Palace. The armed forces say it will take five years to update the colours in our forces but I suppose like Americas, filled with all creeds with no discipline and a poor combat fighting ability, we are heading down that road.

1st. There was the mass redundancies leaving most of our forces short of bodies

2nd. Bringing in more ethnics into the forces. Who is behind it and why?

We must stand up for our forces now before it is too late.

BY A CONCERNED OLD SOLDIER.

Kenneth Kaunda: "Africa needs a fresh start"

This man? above was in Scotland lately, pleading with Scots to help campaign for (wait for it) a 135 billion pound, yes "BILLION" in African foreign debt to be wiped out by the government to give the so called poor impoverished continent to have a new begining. What a joke how many white families would like their debt's canceled out, so they could have new start in life.

The one thing that gets me most about this is why do we the white man have to keep bailing these scum out? Alot of people say oh the poor blacks it was our fault we took them as slaves, and so on and on it goes. But ask yourself this - If they were equal to us, why did they not invent the steam engine, electricity, trains and just about everything else. Why was it white men. Why did they not evolve and come and make slaves of us. Was it because they lived in jungles and deserts. Well we started by running round the forest like animals, but with the wisdom of the Gods, we move forward with inspiration to what we are today. Yet in the last sixty years or so all of a sudden the black man is our equal when all he is doing is living off our rewards. Yes there are black lawyers, teachers and doctors etc.but you can teach a monkey to do tricks.

So the next time they shout about equality ask them about what I have mentioned.

BY S.S.

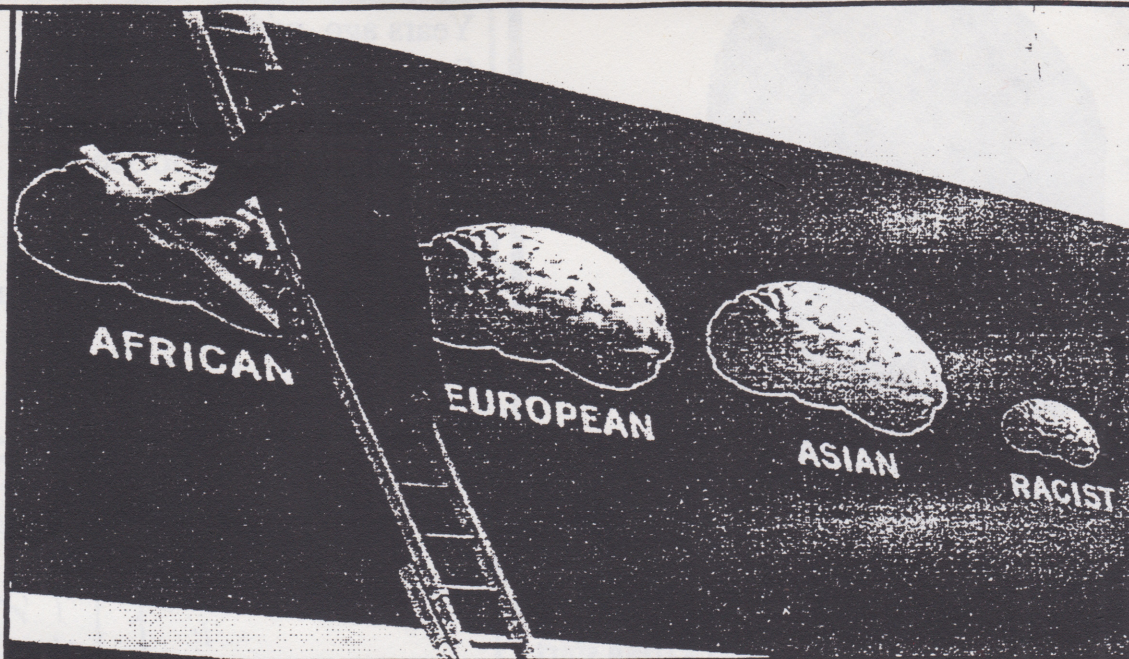

Years ago, with sword in hand,
Our ancestors stood free,
Proud of our kin folk, Proud of the land,
This is what I want to see,
A Nation of warriors,
No one can deny,
It's time for Scots folk, to look around,
It's time to refind our way.

On the right we have a picture which is run in the National Gutter Press under the story about a book called The G. Factor written by a Psychology lecturer from Edinburgh University. Who claims that black people have a lower I.Q. than whites. Well what's new we have been saying this for years but what causes the outrage is that

someone who is not a skinhead, which scares them, are now waking up to the black person

THE DRUG CULTURE OF TODAY

It may be one thing for so called "responsible adults" to make the choice of wasting their lives by taking drugs. This is a decision they are weak enough to make. But when an eleven year old school kid comes into contact with drugs in the playground, on street corners, and when surrounded by so called "Cool Sounds" of this drug encouraging music scene of today, it is a completely different matter. Does an eleven year old really make a

choice of "I think I will get stoned today." Of course not! The drug pushers and brainwashing culture makes the choice for them. If theres money to be made, then the low life scum won't think twice about ruining a kids life, or anybody else's for that matter. Our country's children are tomorrows generation. Are we happy to let things from bad to worse? Our kids don't have a real choice but we do! I make my

choice to stand against the drug culture which is polluting more minds every day. What can you do about it? You ask. Look about you, who do you know that is involved in either taking, using or associating this crap! They are there all around us, and they think they are "NORMAL!!! Think what you can do to make life difficult for them and "ACT NOW!!...

ACTION NOW FOR A NEW TOMORROW.
